

I am a workplace, education or social contact (exposed person)

This flowchart is designed to provide an overview of what you need to do as a workplace, education or social contact. You may also be referred to as an exposed person. For more information, read the Department of Health's [checklist for contacts](#).

An exposed person is someone who has had either 15 minutes of face to face contact, or 2 or more hours, in the same room as a COVID case outside of a residential setting. These times may add up over a couple of days and does not need to occur at one time.

If you are still unsure about whether or not you are a contact, you can [email us](#). WPHU is responsible for the western metro region, if you are unsure of what region you live in, [click here](#).
